

# NICHOLSON PLASTICS LTD

*Full Service Contracts  
Now Available at Your Request*

Nicholson Plastics Ltd has been synonymous with the design and construction of water storage tanks since 1968. We are recognized as one of the market leaders in our industry.

Our customers & friends have come to rely upon us more & more and not just for the installation of their Water Tanks. Now they are asking us to offer them "Full Service Contracts" on our installations.

Nicholson Plastics has risen to the challenge and we have now put the necessary infrastructure in place to enable us to offer and manage "Full Service Contracts".

Our on site service has been declared "Second to None" and your request for advice will be acted upon swiftly. Our site supervisor will arrange to meet you at your project at a mutually convenient time. The services we outline in the following pages will reassure you that you have made the right decision in choosing Nicholson Plastics.

**NICHOLSON PLASTICS LTD**

Nicholson Plastics strive to keep the services we offer fully flexible. Working alongside our clients since our entry into Water Storage in 1968, we have encountered & overcome every conceivable site condition. If in doubt as to the scope of our commitment just ask and we will meet your requirements where humanly possible.

We are confident that whatever your challenge we have the knowledge & commitment to fulfil your requirement to the highest standard.

The following list is an indication of the services we can undertake for you but is by no means exhaustive so if you don't see your requirement here, just ask.

Nicholsons site erectors are our own skilled operatives. Fully trained in working within confined spaces and in all site conditions including from scaffolding at height. All work undertaken whilst adhering to current Health and Safety Guidelines.
